Introducing Scaleit W8

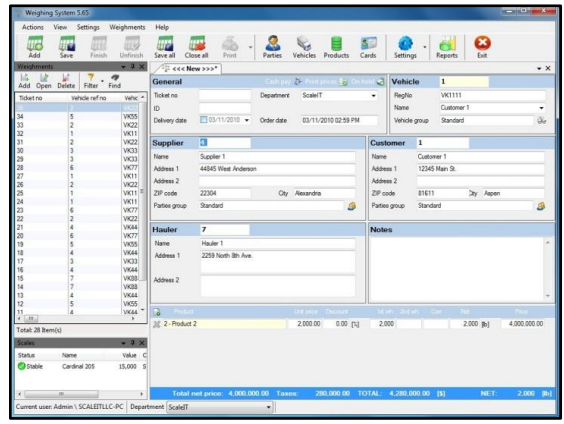

Affordable, State of the Art Truck Scale Software

Scaleit W8 (pronounced “weight”) is a new concept that radically changes the way scale software is acquired and used in the U.S. The **Scaleit W8** concept is simple and similar to prepaid phone cards – easy to use, no long-term obligation, no surprises, no extra costs and makes a great budgeting tool because all costs are known up-front, ranging from \$100 to an annual maximum \$2,000.

We fully support **Scaleit W8** with no annual service or maintenance costs and will provide all newly developed updates and technical support at no cost. Our team will provide easy, personalized, comprehensive telephone, email, and remote support.

Truck scale software shouldn't be expensive to acquire, use or upgrade! With **Scaleit W8** users have the ability to leverage easy to use *state-of-the-art* truck scale software with no capital outlay and the flexibility to purchase only as needed – making it economical for smaller operations and a cutting edge solution for the largest.

“There is nothing that compares to Scaleit and their Truck Scale Software W8.” – Tyler Sorensen, Operations Manager, Sorensen Sand & Gravel
